

PETITION FOR TOMMY MORRISON TO RETURN TO THE RING

Tommy Morrison is one of America's National emblems and heroes. He is a boxer who was on top of the world, and as a rising star boxer, Sylvester Stallone cast him as Tommy Gunn in his movie Rocky V. Because of undocumented and unobtainable "HIV" tests and due to vindictive rumors, before he was to fight Mike Tyson and others on a 3-fight contract arranged by Don King of Ali Fame, in 1996, he then suddenly became yet another victim of the medical, pharmaceutical, and government "HIV" agenda. His career was ruined. In brief, while his boxing successes were legion, in 1996, Morrison's life and career were deliberately destroyed by "HIV/AIDS" stigma, ignorance, and "the silent war" against human health, reason, and human rights-and by propaganda.

Not only has Tommy David Morrison not been able to obtain his test results during the past 15 years, he has had two "HIV-negative" sons, with two "HIV-negative" wives, he has led a very productive, healthy life and retains two heavy-weight champion of the world titles, that have recently been stolen from his possession for reasons that are of a mysterious nature. He had offered to donate these belts to any agency that could show him infective, pathogenic "HIV" viruses in his blood. His challenge has been met with silence, obfuscation, and continuing stonewalling by the AIDS establishment.

If you watch his You Tube-posted videos of interviews with Mr. Morrison, you would find one of the most charming, personable, humorous, soft-spoken, and healthy two-time heavyweight champions of the world you've ever met. His goal is to get back in the ring and fight and to continue to train young boxers who often are from disadvantaged backgrounds. What you are told, and have been led to believe about "HIV/AIDS," or this two-time heavyweight world champion by mainstream media and the Federal Government-backed pharma-promoting AIDS promoters that direct the NIH, CDC, and other so-called Public Health Service institutions, as well as doctors and boxing officials who have violated HIPAA laws as well as the fiber of human decency, is a violation of Mr. Morrison's human rights at best, and criminal.

Finally, this PETITION is being provided to his fans and the world alike to document the atrocities committed against Mr. Morrison.

Tommy needs your help and support.

WE THE UNDERSIGNED DEMAND ACKNOWLEDGEMENT OF AND RESOLUTION OF THE FOLLOWING ISSUES:

- 1)** Tommy clearly has been an inconsistent "HIV" tester as indicated by his multiple inconsistent test results, none of which can be produced or located or validated as his own, and about which there appears to have been an ongoing obfuscation by regulatory authorities, testing labs, and among "the AIDS establishment."
- 2)** Tommy has one or several of false-positive reasons for testing "HIV" positive, that never have been differentially diagnosed or explored: nasal infections, fungal infections, "hepatitis C," unknown effects of heavy steroid usage, but not the virus "HIV," according to new science,

new medical observations, and according to it's Nobel-prize-awarded discoverer's recent claims (Luc Montagnier) [1].

3) Due to the cross-reactivity of “HIV” with many other entities, factors, or medical conditions, especially chronic fungal infections, hepatitis C, respiratory infections, vaccines, and the unknown effects on the immune system of long-term anabolic steroid usage on the immune system's normal functioning and antibody production, it should be demanded that Mr. Morrison (and other boxers) be left alone to pursue his career without the need of requiring him to take discredited “HIV” tests that detect molecules all known to generate positive “HIV” readings in a plethora of normal contexts, not only in man but in animals such as dogs.
